

SINOWAY Newsletter

Feb., 2024

☆Market information

1. Sinoway is full ready for CPhI (Japan) to meet customers worldwide, Warmly welcome to visit our booth 6B33 from April 17~19th 2024.

Our Sinoway have been exporting to Japan more than 30 years, We closely follow up the Japan market trend and requirements. In this exhibition will bring some of our strong items with high quality (S.Impurity NMT 0.05%) and introduce our custom development and manufacturing services. Such as:

Empagliflozin API and key intermediates,
Semaglutide side chain and main chain,
spermidine rich wheat germ extract,
Bakuchiol (Oppm Psoralen and Oppm Isoporalen)
Edoxaban API and key intermediates etc.

If you are interested in any of them, be free to let us know.

☆New Products Recommendation

This month, we would like to introduce below hottest Food supplement produced by advanced technology (Fermentation & enzymolysis, the important is that, the Enzymes used are produced by our mfr) and have large Production Capacity (3~4MT per Month).

***Due to lower production cost, current price is much more competitive than other supplier (about lower 10% or more based on quantity)

welcome to visit our mfr for in-depth cooperation.

Product Name	CAS No.	Production technology	Quality	Complete Documents	Production Capacity&Stock Situation
Citicoline	987-78-0	biosynthesis technology (Fermentation & enzymolysis) The enzymes used are produced by our mfr.	99% by HPLC	Halal/Koscher/ FASSC22000/GRAS	3~4MT/Month 1.5MT as Stock
Citicoline Sodium	33818-15-4		99% by HPLC	Halal/Koscher/ FASSC22000/GRAS	3~4MT/Month 1MT as Stock
L-Theanine	3081-61-6		99% by HPLC	Halal/Koscher/ FASSC22000/GRAS	3~5MT/Month 1MT as Stock
L-Glutathione Reduced	70-18-8		99% by HPLC	Halal/Koscher/ FASSC22000/GRAS	3~4MT/Month 1MT as Stock
